

## WORK SPACE ERGONOMICS

Prism now offer a range of office desking and ergonomical workspace accessories

- Desktop LCD stands
- LCD wall mount
- LCD swing arm (with gas spring) for wall or table mounting
- Multi LCD column stands
- Acrylic monitor stands

**LCD-monitor arms and stands.** The range of Prism LCD flat panel display arms and stands meet the growing demand for display flexibility for the ergonomic stand point. It enables to adjust the screen fully (up to 4 pivoting points) to the individual user's requirements, regarding height, viewing angle, distance and tilt. These products cover a wide range of LCD screen sizes up to 18" and are TÜV/GS approved. You will be amazed of the convenience and flexibility it brings to your work place.

**CPU-solutions** The security of computers and the data they contain is becoming ever more important. Which also includes their physical security. Network servers and PCs can do their work in safety when they are neatly stored. The lockable cabinets have an internal acoustic foam lining. Furthermore, they offer a feeling of security, reduce noise levels and create

additional workspace. They are also suitable for dusty or industrial environments, as replaceable dust filters clean the intake air. Adequate ventilation is guaranteed by one or two fans. You can also fit your CPU in any of the offered alternatives, that suit your requirements.

### PRODUCT FEATURES & BENEFITS

#### Viewmaster flat screen arms

- Rotate 360°, tilt 145° and swivel 180°
- Advanced cable management design
- Available in aluminium and charcoal
- Wall mounted and desk mounted
