

PDU'S

Universal PDU's
to cater for any application

As the only Power Distribution Unit specifically designed for purpose, the Prism PDU is the socket strip of choice for 19" technology racking systems, enclosures and associated applications. Simplicity, quality and the option of enhanced features are the keynotes.

Simplicity of use, with numerous standard built-in options such as a fully shrouded neon mains switch, multiple choice of socket orientation and external earth tag, all designed to suit the latest rack and enclosure designs.
